CEEF

Community Enhancement Educational Foundation is non governmental and non profitable organization with 27 years of community development project implementation experience. CEEF established this institute to help post secondary and university graduates develop professional skills that meet with International Standard of leadership and become skillful managers.

The philosophy

As a Foundation we believe that while education is a human right, professional skills acquisition is a necessary choice for individuals with a sense of purpose and a necessary asset for democracies which prioritize human capital as a critical resource that delivers good governance and build the momentum for citizens' relevant political and economic participation if sustainable national development and nation building is to be achieved. It should obvious by now that at the center of factors accounting for Africa's underdevelopment is the lack of leadership and management. And until the capacity is built to bridge the gaps the fiercest fallows will continue to hold the grounds; resisting required innovations and creativity.

These Programs which represent CEEF's commitment to providing a consolidated intellectual ,are tailored to attend to the immediate and long term outcomes of the UN Sustainable Development Goal (SDG) since it serves as a global platform for strategic leadership and result based management.

CLIPSI is a platform for post secondary graduates of higher institution, working class who are desirous to develop professional knowledge in order to meet with contemporary leadership skills required in a multicultural work environment.

Our cardinal focal point which is embedded in our core objective is as follows:

Provide quality training:

- ◆ that encourages research and competitiveness among participants through a participatory framework for better results, self- development as potential leaders;
- ◆ That builds high performance individuals to craft competitive strategies, building new visions, values and culture; resulting in —best place to workll excited staff, delighted customers and very satisfied employers.
- ◆ That helps trainees to become effective advocate and managers of NGOs, companies, and diplomats, and state actors.
